[Go back to the top](#)

## STEP 6 – TEAS TEST DAY Perform your system diagnostic tests

It is essential that you perform the following steps completely, and in the order presented.

The **Before you Begin** page provides information about your remote proctoring experience, including instructions, restrictions, and data collected during the assessment. Be sure to read all the instructions on this page.

When you are ready to proceed, scroll to the bottom of the page and click **Start exam pre-checks**.

➔ **IMPORTANT:** At the bottom of the page, you may see a warning regarding RAM or your CPU. We recommend closing all other programs and/or windows and plugging in your computer.

You should be able to proceed to the exam pre-checks regardless of these warnings. However, if you choose to proceed after these warnings, your test experience may not be optimal. Make sure you meet the system requirements before test day!

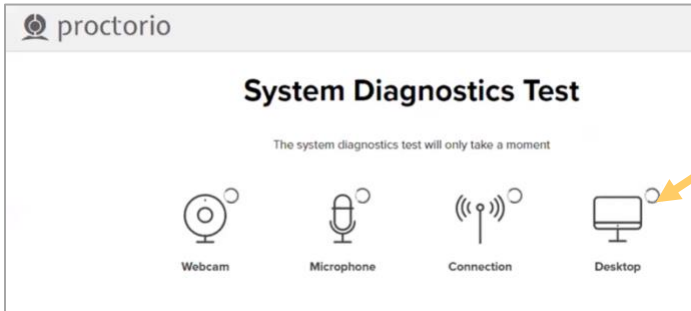

**Warning:** Although your computer has enough RAM installed, only 1.16GB is available at this moment. This is at or below the minimum requirement of 2GB. We recommend restarting your computer or closing other programs before proceeding. [Learn more about what this means.](#)

**By continuing, you acknowledge that your exam is likely to crash. Your exam administrator will be notified you skipped this warning.**

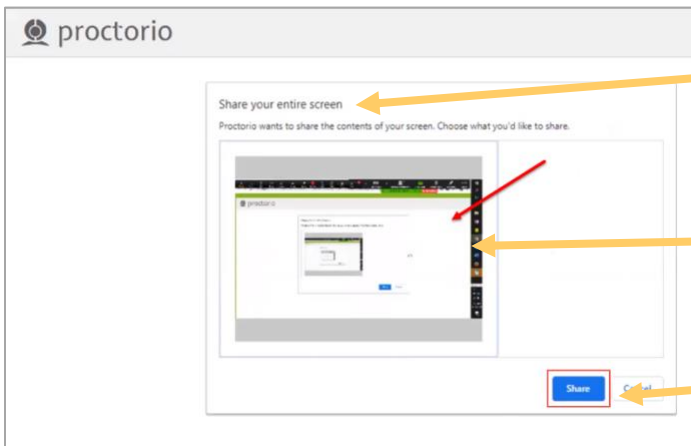

**Warning:** This computer's processing power (CPU) is at or below the minimum requirements. We recommend using a different computer. [Learn more about the minimum system requirements to use Proctorio.](#)

**Warning:** This computer is only running on battery power (96%). We recommend you plug this computer in before continuing.

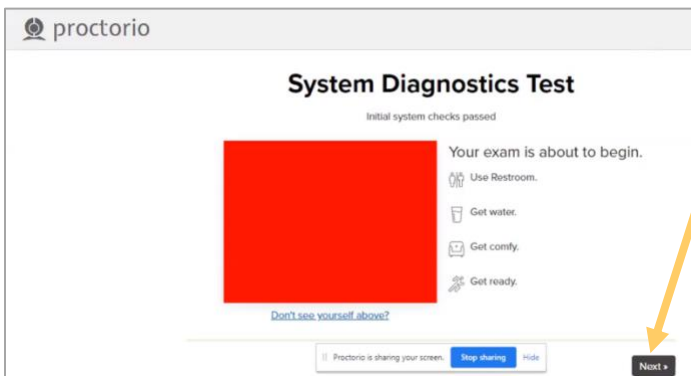

On the **System Diagnostics Test** screen, Proctorio checks your camera, microphone, internet, and computer. After the system has completed its checks, click **Next** at the bottom of the screen.

This screen is prompting you to allow screenshare. There are two steps to sharing your screen.

**IMPORTANT:** First, you must click the image of the screen to select it. This turns the **Share** button blue.

Click **Share**.

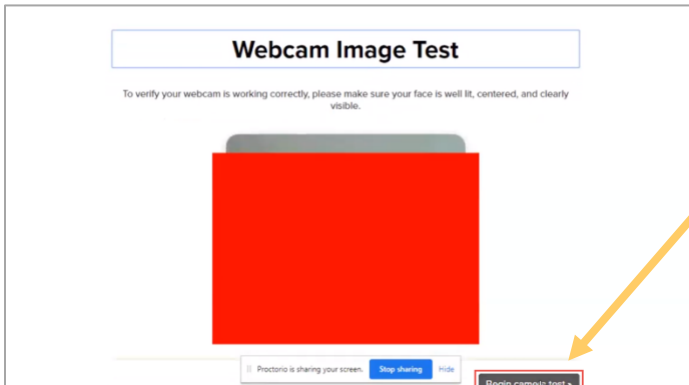

This message displays when the system checks are complete. Click **Next**.

You will then be asked to show your photo ID to the camera. This scan is used to validate your identity.

**Note:** If the system has trouble capturing the image, click **Having trouble** to scan the image manually.

Click **Next** to proceed.

The site will conduct a webcam image test. The system will take five photos to verify that your webcam is working correctly. Click **Begin camera test**.

➔ **Important:** Make sure that you are in a well-lit space with minimal glare on the camera. If you are not in a well-lit room, your camera might not be recognized, and you will not be able to proceed.

Next, you will be asked to show your exam environment by using your device's camera to scan the room in which you will be testing.

Click **I understand** to begin the room scan.

For the multiple-choice questions:

- Radio buttons are placed to the left of each of your answer options.
- An answer is only submitted when you click **CONTINUE**.
- You can change your answer any number of times and to any option before you click **CONTINUE**.

**IMPORTANT:** If you attempt to exit from full-screen mode or refresh your screen, or if you press the **Escape** button, an alert message will be sent to your proctor, potentially resulting in the termination of your assessment.

When you reach the last question of your assessment, the **Assessment Completed** window displays.

Click **Finalize and View Results** to complete your assessment.

When you complete the assessment, your Proctorio session will end, and your results will be available.

When you complete an ATI TEAS Assessment, your Individual Performance Profile (IPP) launches in a new window. The IPP summarizes the results from your assessment.
