

FLORIDA COLLEGE DUAL ENROLLMENT

Course Offerings | Fall 2026

[Courses subject to change]

COURSE CODE	COURSE NAME	COURSE DESCRIPTION
ENC 1101	Freshman Composition I	Prerequisites: Minimum score of 17 on the English and 18 on the Reading areas of the ACT, or 450 on SAT Verbal, or grade of "C" or above in ENC 0020 Expository writing emphasizing paragraph and essay development, and introduction to research. College-level communication – Writing Intensive.
ENC 1102	Freshman Composition II	Prerequisite: Grade of "C" or above in ENC 1101 A continuation of ENC 1101, including a major research paper and analytical and persuasive writing of one or more of the following types: analytical essays, critical reviews of nonfiction and/or fiction, persuasive essays, and summaries or paraphrases. College-level communication – Writing Intensive.
MAC 1105	College Algebra	Prerequisites: MAT 1033 or a satisfactory score on the mathematics portion of the ACT/SAT This course provides students with an opportunity to gain algebraic knowledge needed in many different fields such as engineering, business, education, science, computer technology, and mathematics. Graphical, numerical, symbolic, and verbal methods support the study of functions and their corresponding equations and inequalities. Students will study linear, quadratic, rational, exponential, logarithmic, inverse, composite, radical, and absolute value functions; systems of equations and inequalities modeling applied problems. There will be extensive use of graphing calculators.
STA 2023	Statistics	Prerequisites: Satisfactory score on the mathematics portion of the ACT/SAT Descriptive statistics; basic probability principles, discrete and continuous probability distributions: binomial, normal, t, and chi-square; point estimation, confidence limits, and hypothesis testing. Emphasis will be placed on applications from education, life science, social science, physical science, and business. Students will be introduced to statistical computing and data visualization by data science software such as the programming language R.
MAC 2311	Calculus I	Prerequisites: 2 years high school pre-calculus or calculus with appropriate SAT/ACT mathematics score, MAC 1114, or MAC 1147 The derivative, sine and cosine, the Mean Value Theorem, sketching curves, inverse functions, exponents and logarithms, integration (including the Fundamental Theorem), properties of the integral.
ECO 2013	Principles of Economics: Macro	Prerequisite: MAC 1105 Introductory course dealing with the importance of economic issues at the national and international level. Includes the economic role of government banking, national income accounting, the business cycle inflation, unemployment and fiscal and monetary policies of the federal government. Meets College-level communication requirement.
BSC 1005	Intro to Biological Principles	A course for non-science majors which surveys various topics in biology in relation to human concerns. The topics include the organization of living matter, cells and life, genetics, ecology, and a brief survey of living organisms.
EUH 1000	Western Civilization: Beginnings-1660	A survey of the history of western civilization from the earliest times to about 1660. The political, cultural, religious, philosophical, and aesthetic aspects of western civilization are considered. Meets College-level communication requirement.
AMH 2010	American History: 1607-1877	This course outlines the development of American history from exploration and colonization to the Reconstruction era. Political, social, economic, and military history is traced through this epoch of American history. Meets College-level communication requirement.
PSY 1012	General Psychology	An introduction to the broad field of psychology including diverse topics such as learning, perception, motivation, emotion, consciousness, intelligence and abnormal psychology as well as the adaptation of the individual to the social environment. The course emphasizes the empirical approach and attempts to develop critical thinking skills.
ARH 1050	Art History I	Art History I is a survey course of art through history. This course covers the art periods from art of the ancient near east until the gothic art period of the 1300s.
MUL 1110	Intro to Music Literature	A survey of music and influential composers from early forms to contemporary compositions. The aims of the course are to widen the musical horizons and receptivity and to develop discrimination. Recorded music is used extensively for listening. No formal musical background is prerequisite. Humanities Credit for graduation. Meets College-level communication requirement.
SPN 1120	Spanish I	SPN 1120 is open to students who have had no previous work in Spanish or who are recommended for this class based on the placement examination. Study includes pronunciation, elementary conversation, reading, and composition. The reading selections provide information about the Spanish-speaking people and their culture.
EDF 2005	Intro to Education	This course is a survey of the fields of educational specialization, the school's relationship to other community institutions, the teacher's responsibility to be an informed citizen, and current trends in educational thinking. Field experience hours required.
FIN 2100	Personal Finance	Topics designed to assist the consumer in management of personal financial affairs. Includes insurance, savings instruments, credit, inflation, recession, banking, personal expenditures and budgeting, personal taxes, social insurance programs, house buying, introduction to investments, and estate planning.
